

Alblasserdam, January 2010

Dear Relation,

TTR Euroworks BV declares the following Thermal Transfer Ribbons from our assortment are tested and Isega approved qualities thus to be used in combination with food. Only the very best and stable ink qualities we pre-select for you.

Pantera wax

TTR 3 wax/resin

TTR 4 wax/resin

TTR 5 wax/resin

Endura Resin

Dahlia Resin

Universal resin

Carat wax-resin near edge

Primera wax-resin near edge

Maxima wax-resin near edge

Due to the very small contact surface one can permit higher measuring values concerning the corresponding examinations. Moreover we are still carrying out various purity examinations on the contents on all new ink formulas which we know due to the formulation.

We hope to have informed you well. Feel free to contact us for further information.

Best regards,

E.J.M. Schaeffer
Managing director
